ROOT Version v5-10-00 Patch Release Notes

[download](#) ^[1] [patches](#) ^[2] [v5-10-00](#) ^[3]

Binaries are currently not available for patch releases.

To get the source of the head of the v5-10-00-patches branch do:

```
svn co http://root.cern.ch/svn/root/branches/v5-10-00-patches [4] root
```

After obtaining the source read the file [README/INSTALL](#) ^[5].

Changes in the head of the v5-10-00-patches branch

- TTree:
 - Fix memory leak which happens when the content of the basket does not compress well (aka it should be rare).
